

# Cheer up, you are living

(Åberg Songs Ltd. 01-11-24)

(Vers 1:)

Cheer up, you are living  
No one thought you would open up your eyes  
We're here when you're ringing  
We work hard all day long to see you rise  
That is making your bed, drying your head, easing pain  
Bringing comfort to you, that's what we do, it's insane

(Refräng:)

Fighting for the money  
That's our game, nothing more  
Listen to us honey  
We're not ashamed, not at all

(Vers 2:)

In this situation  
You should try to get rest that you will need  
It's quite a sensation  
That you are alive, that's what we can read  
We're not angels in white, get that all right, understand  
It's our job to be nice, making you rise, holding hands

(Refräng:)

Fighting for the money  
That's our game, nothing more  
Listen to us honey  
We're not ashamed, not at all

(Stick:)

Rest now, we are here for you  
Ask how, life will come and go  
for you too

Solo

We're not angels in white, get that all right, understand  
It's our job to be nice, making you rise, holding hands
