

Lullaby

Vers 1

C Am F F0 Em C G7sus4 G7
Little girl the day is over try to rest beside my shoulder
C Cmaj7 Dm7 F0
I will read you funny stories
G0 Am7 Fmaj7 G7
say farewell to all your worries

Fmaj7 C G# G13 C
If the words seems wrong, we can hum a song
Fmaj7 C G# G13 C
If it all seems right, sleep all through the night

Refräng

Dm7 G7
All the stars up in the sky
C6 Am7
notice every day how hard you try
Dm7 G7
Every day will turn to night
C6 G6
for as long as sun will bring us light

Vers 2

Night is cold the moons reflecting
Sunbeams planet earth's neglecting
close your eyes and dreams will follow
try to bring them back tomorrow
Dreams can let you try
and give reasons why
they can make you cry
All do not comply

Refräng

Vers 3

Now asleep and free of tension
turn my mind to comprehension
Moments never last forever
dont forget it...
never ever.....
Days will soon be years.....
whispering in your ears
Child I have to go
Daddy love you so
