E D/E A/E G/E E (Öppna strängar)

Have you lost somebody, do you feel the pain
Do you miss your brother, are you turning Dane

Gitarripfel

When you hear the voices calling and shadows bring you down
All night long your bed is falling and you can't stop that sound

Is your brain degraded, can you count to ten
Memories have faded, now it's now or then

You need help from medical-educated experts now
Present state is self-related, you know it's true somehow

Throw away all sharp stuff, specially your knife
If you have a great laugh, time to warn your wife

Stick:
